

AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title		Growing in Hobby Gardens							
Course Code		BB103		Course Level		First Cycle (Bachelor's Degree)			
ECTS Credit	2	Workload	50 (Hours)	Theory	2	Practice	0	Laboratory	0
Objectives of the Course		The objectives of course is giving general information on to hobby gardening which is known all over the world and is providing plannng to hobby gardening by agriculture engineers who are graduating from our faculty.							
Course Content		The meaning of hobby garden. Examples of hobby gardens from the world. General information about plants that can be chosen for hobby gardens. Cultivation types and shapes. Cultivation practices. Harvesting, storage, yield and uses of those vegetables. Planning a hobby garden as a project.							
Work Placement		N/A							
Planned Learning Activities and Teaching Methods				Explanation (Presentation), Discussion, Case Study					
Name of Lecturer(s)									

Assessment Methods and Criteria

Method	Quantity	Percentage (%)
Midterm Examination	1	40
Final Examination	1	70

Recommended or Required Reading

Week	Weekly Detailed Course Contents	
1	Theoretical	The meaning of hobby garden and general information.
	Preparation Work	searching from internet
2	Theoretical	General information of hobby garden
	Preparation Work	searching from internet
3	Theoretical	Examples of hobby garden from the world.
	Preparation Work	searching from internet
4	Theoretical	General information about plants for hobby gardening
	Preparation Work	Showing different species of plants in the department practice garden
5	Theoretical	General information about plants for hobby gardening
	Preparation Work	Showing different species of plants and cultural practices in the department practice garden
6	Theoretical	General vegetable growing
	Preparation Work	Showing vegetables and doing cultural practices with the students
7	Theoretical	General fruit growing
	Preparation Work	Showing fruits and doing cultural practices with the students
8	Intermediate Exam	Mid-term exam
9	Theoretical	General viticulture
	Preparation Work	Showing vine yard and doing cultural practices with the students
10	Theoretical	Growing ornamental plants

10	Preparation Work	Showing ornamental plants and doing cultural practices with the students
11	Theoretical	Planning a hobby garden as a project.
	Preparation Work	Planning a hobby garden as a project.
12	Theoretical	Planning a hobby garden as a project.
	Preparation Work	Planning a hobby garden as a project.
13	Theoretical	Examination of projects
	Preparation Work	Examination and discussion of projects
14	Theoretical	Field trip
	Preparation Work	To recognise and learn the exact plan of hobby gardening
15	Theoretical	Practice Exam of semester course
	Preparation Work	Practice Exam of semester course
16	Final Exam	Final exam

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	1	2	42
Midterm Examination	1	3	1	4
Final Examination	1	3	1	4
Total Workload (Hours)				50
[Total Workload (Hours) / 25*] = ECTS				2

*25 hour workload is accepted as 1 ECTS

Learning Outcomes

1	To be able to examine species that can place in hobby gardens
2	To be able to comprehend plants which place in hobby gardens, to be able to examine cultivation needs of plants which place in hobby gardens.
3	To be able to examine cultivation techniques of plants which place in hobby gardens, to be able to examine propagating material of plants which place in hobby gardens.
4	To be able to explain growing practices of plants which place in hobby gardens, to be able to examine plants which can produce together
5	to be able to examine propagating material of plants which place in hobby gardens.

Programme Outcomes (Dairy Technology)

1	Having sufficient infrastructure in basic sciences and engineering subjects and ability to use the theoretical and applied info instantly in this field.
2	Determining the modern techniques, tools and information technologies required for applications related with his field and ability to use them efficiently
3	Ability for planning, projecting, and designing, following up, analyzing and finding target-driven solutions related with his field
4	Ability to have professional ethic and awareness.
5	Ability to work, decide, express opinions orally and in written individually
6	Ability to participate team studies, taking responsibility, making leadership.
7	Ability to conceive Atatürk's principles and reforms, to communicate in Turkish and foreign language.
8	Ability to comprehend the necessity to learn for a life time, to monitor developments in science and technology and continuously renew himself.
9	Having sufficient level of information about production and quality control of milk and dairy products and also product development, increasing product quality and food security fields.
10	Ability to detect, define, solve problems related with his field and to select and apply suitable methods and modeling techniques for this purpose.
11	To be conscious about workplace applications, worker health, work security and environment subjects, to have knowledge about legal results of the engineering applications related with his subject.

Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High

	L1	L2	L3	L4	L5
P1	5	5	5	5	5
