#### **Assessment Methods and Criteria**

Method	Quantity	Percentage (%)	
Midterm Examination	1	40	
Final Examination	1	60	

## **Recommended or Required Reading**

1 AutoCAD Lesson Book

Week	Weekly Detailed Course Contents			
1	Theoretical	Perform file operations on the computer		
2	Theoretical	To edit the drawing screen		
3	Theoretical	se display commands and units set		
4	Theoretical	Coordinate systems, drawing settings and use the drawing commands		
5	Theoretical	Using drawing commands		
6	Theoretical	Drawing commands use auxiliary		
7	Theoretical	Use drawing and editing commands fixes		
8	Theoretical	Use drawing and editing commands fixes (MIDTERM)		
9	Theoretical	Using Layers commands		
10	Theoretical	Use dimension commands		
11	Theoretical	Adding the command from the block drawing external environment use		
12	Theoretical	Appearances		
13	Theoretical	Appearances		
14	Theoretical	The plot		

# **Workload Calculation**

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	0	2	28
Term Project	1	0	10	10
Midterm Examination	1	5	1	6
Final Examination	1	5	1	6
Total Workload (Hours) 50				
[Total Workload (Hours) / 25*] = <b>ECTS</b> 2				
*25 hour workload is accepted as 1 ECTS				

 Learn Jutcomes

 1
 Filing and screen layouts.

 2
 Learn drawing and editing commands.

 3
 Learns the coordinate system.

 4
 Draws geometric shapes.

## Programme Outcomes (Accounting and Tax Practices)

riogra	anime Outcomes (Accounting and Tax Tractices)
1	Being an individual who is respectful to his own values, fits ethical rules, investigates and examines environment, events, and takes lessons.
2	To have theoretical knowledge and to manage the process which will contribute to the solution of the various problems that may arise during the professional activity and to obtain the expected practical results in practice.
3	To have theoretical knowledge supported by textbooks with current information, application tools and other resources, and to be able to discuss using any kind of information related to this field.
4	Be able to apply and evaluate all the techniques that the accounting profession should have.
5	Ability to plan, implement and evaluate all activities (such as financial statements and financial statements, keeping accounts in a computer environment, etc.) performed in the business and finance world, accounting bureaus and tax-related institutions.
6	In the sector or institutions that it supports during its activities; to be able to interpret and evaluate data using the knowledge and skills gained in the field, to be able to recognize and analyze problems, and to be able to develop evidence-based solutions.
7	Ability to gain personality traits showing planning and decision making skills.
8	To be able to comprehend the importance of the developments of the business and financial world and the knowledge that they have in this direction, to be able to develop the concepts of creativity and creative thinking, to be able to realize the effects of professional activities in the applied fields.
9	To be able to evaluate and interpret the knowledge and skills gained in the professional field.
10	Be able to develop personality traits that develop environmental awareness, respect for differences, and adapt to different situations and social roles.
11	To be able to use communication techniques properly while maintaining human relations.
12	To be able to use information and communication technologies together with the computer software required by the professional field
13	To be able to inform related persons and institutions about the issues related to the field during the professional work, to be able to transmit suggestions of solutions to problems and problems in writing and orally.
14	To have sufficient consciousness about the universality of social rights, social justice, protection of quality culture and cultural values and environmental protection, occupational health and safety issues.

Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High
