Learn	Learning Outcomes					
1	1 Can determine textile raw materials and surface properties.					
2	Can recognize the auxiliary materials used in clothing production					
3	Can choose auxiliary materials					
4	Evaluating the quality properties of auxiliary materials					
5	Recognizing clothing usage and care instructions					

Programme Outcomes (Garment Manufacturing Technology)

i i ogi	anne Outcomes (Garment Manufacturing Technology)
1	To be able to use theoretical and practical knowledge related to Garment Manufacturing Technology
2	To carry out brand management, marketing and promotional activities related to Garment ManufacturingTechnology
3	Having the skills of data collection, research report preparation and presentation for the research, preparing the project
4	Being able to plan the processes / processes related to Garment Manufacturing Technology to meet the expectations of the sector, to be able to make business organization, production plan and control, prepare working instructions
5	To be able to determine textile raw materials and surface properties, to choose garment auxiliary materials, to be able to control materials
6	To be able to carry out steps of pattern preparation, grading, pattern layout preparation
7	To be able to use necessary equipments and machines for applications related to Garment Manufacturing Technology and to
1	make adjustments and maintenance
7 8	
-	make adjustments and maintenance
8	make adjustments and maintenance To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology
7 8 9	make adjustments and maintenance To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology Having the ability to manage and organize business by creating the idea of establishing a business in the field
