

AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title Project Preparation										
Course Code		GİY251		Couse	Leve	el l	Short Cycle	(Associate's I	Degree)	
ECTS Credit 2	2	Workload	50 (Hours)	Theory	/	1	Practice	1	Laboratory	0
Objectives of the Course		With this course, students will be able to prepare a project.								
Course Content		Project topic research, planning and preparation. Preparing the application steps and writing the project. Presenting the project.								
Work Placement		N/A								
Planned Learning Activities and Teaching Methods			Projec	t Bas	ed Study					
Name of Lecturer(s)										

Assessment Methods and Criteria

Method	Quantity	Percentage (%)	
Midterm Examination	1	40	
Final Examination	1	70	

Recommended or Required Reading

1 Ders kitabı, yardımcı kitap, ders notları ve diğer kaynaklar

Week	Weekly Detailed Cour	Detailed Course Contents		
1	Theoretical	Project Research		
2	Theoretical	Project Research		
3	Theoretical	Planning Project Steps		
4	Theoretical	Planning Project Steps		
5	Theoretical	Preparing Project Parts		
6	Theoretical	Preparing Project Parts		
7	Theoretical	Preparing Application Steps and Writing a Project		
8	Theoretical	Preparing Application Steps and Writing a Project		
9	Intermediate Exam	Midterm		
10	Theoretical	Preparing Application Steps and Writing a Project		
11	Theoretical	Preparing Application Steps and Writing a Project		
12	Theoretical	Preparing Application Steps and Writing a Project		
13	Theoretical	Preparing Application Steps and Writing a Project		
14	Theoretical	Preparing Application Steps and Writing a Project		
15	Theoretical	Project Presentation		
16	Final Exam	Final Exam		

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload	
Lecture - Theory	14	0	2	28	
Reading	10	0	2	20	
Midterm Examination	1	0	1	1	
Final Examination	1	0	1	1	
Total Workload (Hours)					
[Total Workload (Hours) / 25*] = ECTS 2					

*25 hour workload is accepted as 1 ECTS

Learning Outcomes

1	Determining project objectives				
2	Making research for the project				
3	Planning project phases				

- 4 Writing the project
- 5 Project presentation

1To be able to use theoretical and practical knowledge related to Garment Manufacturing Technology2To carry out brand management, marketing and promotional activities related to Garment ManufacturingTechnology3Having the skills of data collection, research report preparation and presentation for the research, preparing the project4Being able to plan the processes / processes related to Garment Manufacturing Technology to meet the expectations of the sector, to be able to make business organization, production plan and control, prepare working instructions5To be able to determine textile raw materials and surface properties, to choose garment auxiliary materials, to be able to control materials6To be able to carry out steps of pattern preparation, grading, pattern layout preparation7To be able to use necessary equipments and machines for applications related to Garment Manufacturing Technology and to make adjustments and maintenance8To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology9Having the ability to manage and organize business by creating the idea of establishing a business in the field10To be able to create a model by applying technical drawings of clothing and basic arts education11To be able to realize basic sewing techniques, production stages of women's, men's and children's wear	. logi	anne outcomes (Garment Manufacturing Teerinology)				
 Having the skills of data collection, research report preparation and presentation for the research, preparing the project Being able to plan the processes / processes related to Garment Manufacturing Technology to meet the expectations of the sector, to be able to make business organization, production plan and control, prepare working instructions To be able to determine textile raw materials and surface properties, to choose garment auxiliary materials, to be able to control materials To be able to carry out steps of pattern preparation, grading, pattern layout preparation To be able to use necessary equipments and machines for applications related to Garment Manufacturing Technology and to make adjustments and maintenance To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology Having the ability to manage and organize business by creating the idea of establishing a business in the field To be able to create a model by applying technical drawings of clothing and basic arts education 	1	To be able to use theoretical and practical knowledge related to Garment Manufacturing Technology				
 Being able to plan the processes / processes related to Garment Manufacturing Technology to meet the expectations of the sector, to be able to make business organization, production plan and control, prepare working instructions To be able to determine textile raw materials and surface properties, to choose garment auxiliary materials, to be able to control materials To be able to carry out steps of pattern preparation, grading, pattern layout preparation To be able to use necessary equipments and machines for applications related to Garment Manufacturing Technology and to make adjustments and maintenance To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology Having the ability to manage and organize business by creating the idea of establishing a business in the field To be able to create a model by applying technical drawings of clothing and basic arts education 	2	To carry out brand management, marketing and promotional activities related to Garment ManufacturingTechnology				
 sector, to be able to make business organization, production plan and control, prepare working instructions To be able to determine textile raw materials and surface properties, to choose garment auxiliary materials, to be able to control materials To be able to carry out steps of pattern preparation, grading, pattern layout preparation To be able to use necessary equipments and machines for applications related to Garment Manufacturing Technology and to make adjustments and maintenance To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology Having the ability to manage and organize business by creating the idea of establishing a business in the field To be able to create a model by applying technical drawings of clothing and basic arts education 	3	Having the skills of data collection, research report preparation and presentation for the research, preparing the project				
 ⁵ control materials 6 To be able to carry out steps of pattern preparation, grading, pattern layout preparation 7 To be able to use necessary equipments and machines for applications related to Garment Manufacturing Technology and to make adjustments and maintenance 8 To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology 9 Having the ability to manage and organize business by creating the idea of establishing a business in the field 10 To be able to create a model by applying technical drawings of clothing and basic arts education 	4					
 7 To be able to use necessary equipments and machines for applications related to Garment Manufacturing Technology and to make adjustments and maintenance 8 To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology 9 Having the ability to manage and organize business by creating the idea of establishing a business in the field 10 To be able to create a model by applying technical drawings of clothing and basic arts education 	5					
 make adjustments and maintenance To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology Having the ability to manage and organize business by creating the idea of establishing a business in the field To be able to create a model by applying technical drawings of clothing and basic arts education 	6	To be able to carry out steps of pattern preparation, grading, pattern layout preparation				
 9 Having the ability to manage and organize business by creating the idea of establishing a business in the field 10 To be able to create a model by applying technical drawings of clothing and basic arts education 	7					
10 To be able to create a model by applying technical drawings of clothing and basic arts education	8	To be able to use computer aided pattern and design programs, production applications in Garment Manufacturing Technology				
	9	Having the ability to manage and organize business by creating the idea of establishing a business in the field				
11 To be able to realize basic sewing techniques, production stages of women's, men's and children's wear	10	To be able to create a model by applying technical drawings of clothing and basic arts education				
	11	To be able to realize basic sewing techniques, production stages of women's, men's and children's wear				

Contribution of Learning Outcomes to Programme Outcomes 1: Very Low, 2: Low, 3: Medium, 4: High, 5: Very High
