| Workload Calculation                         |          |             |   |          |                |
|--|----------|-------------|---|----------|----------------|
| Activity                                     | Quantity | Preparation |   | Duration | Total Workload |
| Lecture - Theory                             | 14       |             | 3 | 2        | 70             |
| Midterm Examination                          | 1        |             | 2 | 1        | 3              |
| Final Examination                            | 1        |             | 2 | 1        | 3              |
|  | 76       |             |   |          |                |
| [Total Workload (Hours) / 25*] = <b>ECTS</b> |          |             |   |          |                |
| *25 hour workload is accepted as 1 ECTS      |          |             |   |          |                |

## **Learning Outcomes**

- 1 To know the concept of team and group and to distinguish between them.
- 2 To know the reasons and processes of team building

Evaluating the crisis by knowing the definition and characteristics of the crisis
To know team work and conflict management in health institutions
know the team spirit v.

| Progr | amme Outcomes (First and Emergency Aid )  |
|-------|---|
| 1     | To be able to be aware of their professional authorities and responsibilities.  |
| 2     | To be able to use the principles of individual and organizational communication skills.   |
| 3     | To be able to define the emergency medical services and the pre-hospital emergency medical system devices used in Turkey and the world .  |
| 4     | To be able to perform physical assessment of the patient and primary and secondary inspection.  |
| 5     | To be able to apply the methods of handling and transportation of the patient   |
| 6     | To be able to recognize the rules of the general approach to trauma patients and to be able to be capable of handling and maintenance of trauma equipment.  |
| 7     | To be able to recognize emergency vehicles' mechanical and technical equipment and to be able to drive emergency vehicles.  |
| 8     | To be able to identify the principles of pre-hospital emergency care in cases of environmental emergencies.   |
| 9     | To be able to identify the principles of pre-hospital emergency care in medical emergencies.  |
| 10    | To be able to analyze the ECG rhythm and apply the principles of pre-hospital emergency care for rhythm Disorders.  |
| 11    | To be able to recognize and apply the pre-hospital emergency care drugs and fluids.   |
| 12    | To be able to identify basic life support applications, Advanced Life Support applications and Advanced air way applications.   |
| 13    | To be able to recognize the principles of pre-hospital emergency during disasters.  |
| 14    | To be able to protect and maintain the highest level of physical and mental health.   |
| 15    | To be able to recognize human anatomy and physiology.   |
| 16    | To be able to develop good communication and human relations skills with colluques and patients.  |
| 17    | To be able to apply Infection Control Methods and check infectional situations of emergency vehicles and equipment, ensure the conditions of asepsis-antisepsis and pre-hospital emergency care with Infectious Diseases. |
| 18    | To have the appropriate knowledge of medical sciences at the level of interest, to use specific medical terms and terminology of field  |
|       |   |
