

AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title		Scientific Activities							
Course Code		FZ202		Course Level		Short Cycle (Associate's Degree)			
ECTS Credit	4	Workload	101 (<i>Hours</i>)	Theory	4	Practice	0	Laboratory	0
Objectives of the Course		The aim of this course is to encourage students scientific activities, to increase the interest in these kinds of activities and attitudes, to ensure participation, to redound awareness of life-long learning.							
Course Content		Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.							
Work Placement		N/A							
Planned Learning Activities and Teaching Methods				Explanation (Presentation), Discussion, Individual Study					
Name of Lecturer(s)									

Assessment Methods and Criteria

Method	Quantity	Percentage (%)
Midterm Examination	1	40
Final Examination	1	70

Recommended or Required Reading

1	Lecture notes
---	---------------

Week	Weekly Detailed Course Contents	
1	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
2	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
3	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
4	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
5	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
6	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
7	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
8	Intermediate Exam	Midterm Exam
9	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
10	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
11	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
12	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
13	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
14	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
15	Theoretical	Participate in activities such as scientific meetings, seminars, panel, workshops and museum education.
16	Final Exam	Final exam

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	0.5	4	63
Individual Work	14	0	2	28

Midterm Examination	1	4	1	5
Final Examination	1	4	1	5
Total Workload (Hours)				101
[Total Workload (Hours) / 25*] = ECTS				4
*25 hour workload is accepted as 1 ECTS				

Learning Outcomes

1	Students will be able to comprehend the importance of scientific activities.
2	Students will be able to share information and gain competence in learning together.
3	Students will be able to improve their social skills
4	Students will be able to create awareness of lifelong learning and inquiry.
5	On-site review of effective presentations

Programme Outcomes (Physiotherapy)

1	To be able to recall the information of research methods and statistics so as to follow the developments, monitor and interpret scientific literature
2	To have the appropriate knowledge of basic sciences at the level of interest, to use specific medical terms and terminology of physical therapy
3	To be able to recall knowledge of the general structure and properties of musculoskeletal system and the joints and to evaluate the story of musculoskeletal diseases.
4	To be able to comprehend the methods of measurement of the range of motion of joints and to measure it.
5	To be able implement a general evaluation of posture analysis and gait analysis.
6	To be able to recall the knowledge about general characteristics of musculoskeletal diseases, osteoporosis, osteoarthritis, rheumatoid arthritis, ankylosing spondylitis, especially rheumatic diseases, mechanical low back and neck pain, disc herniation, soft tissue disorders and to apply appropriate physiotherapy.
7	To be able to recall the knowledge and gain skills about the devices and the agents of heater used in physical therapy, indications and contraindications of using, and the necessary information about how to apply on patients.
8	To be able to recall the knowledge of the electromagnetic field.
9	To be able to recall what Elektroakapunktur, Laser, Biofeedback, cervical and lumbar traction systems, pneumatic compression therapy are, and how to apply them, which one is applicable to patients.
10	To be able to recall what manipulation-mobilization is and which patients are suitable for this application.
11	To be able to recall what massage and hydrotherapy treatments are and which patients are suitable for these applications.
12	To be able to gain the professional and ethical awareness, apply gained knowledge and skills in real life situations and transfer gained knowledge to individuals around her/his environment, and improve behavior of life-long learning.
13	To gain knowledge about methods of diagnosis, protection and treatment of diseases
14	To be able to recall the knowledge and gain skills about physical therapy and rehabilitation methods to be applied to neurological disorders.
15	To be able to recall the knowledge and gain skills about physical therapy and rehabilitation methods to be applied to cardiopulmonary disorders.
16	To be able to recall the knowledge and gain skills about physical therapy and rehabilitation methods to be applied to pediatric patients.
17	To be able to gain knowledge about the effects of fitness and exercise on metabolism and responses of body systems to them.
18	To have knowledge about rehabilitation services
19	To become individuals who can do interdisciplinary team work, with a sense of social responsibility and entrepreneur.
20	To be able to recall the knowledge about Atatürk's Principles and the History of Turkish Revolution.
21	To be able to gain the knowledge and ability to become contemporary individuals who can use Turkish language grammar well and know a foreign language knowledge necessary to follow the developments in the profession.
