

#### AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Code ECTS Credit 2	İSG106							
ECTS Cradit 2			Couse Level		Short Cycle (Associate's Degree)			
ECTS Credit Z	Workload	50 (Hours)	Theory	2	Practice	0	Laboratory	0
Objectives of the Cours		be taken by he I be explained		essionals	against risks ar	id dangers i	in this sector and r	elated
Course Content					ctor, OHS mana will be covered		stems, good OHS se.	practices
Work Placement	N/A							
Planned Learning Activ	ities and Teaching	Methods	Explanation	(Presenta	tion), Case Stu	dy, Individu	al Study	
Name of Lecturer(s)								

#### **Assessment Methods and Criteria**

Method	Quantity	Percentage (%	6)
Midterm Examination	1	40	
Final Examination	1	70	

# **Recommended or Required Reading**

1	Occupational Health and Safety Law No. 6331
2	Related laws and regulations
3	Lecture notes

Week	Weekly Detailed Cours	e Contents				
1	Theoretical	Introduction of the course, general rules of OHS and safety culture				
2	Theoretical	Occupational health and safety law and other related laws and regulations				
3	Theoretical	Analysis of the causes of occupational accidents and diseases				
4	Theoretical	Education Methods and Their Importance in Occupational Health and Safety, educations to be given				
5	Theoretical	Risk factors and measures to be taken in the health sector				
6	Theoretical	Risk factors and measures to be taken in the health sector				
7	Theoretical	Risk factors and measures to be taken in the health sector				
8	Intermediate Exam	Midterm exam				
9	Theoretical	The concept of risk assessment and risk assessment methods				
10	Theoretical	The concept of risk assessment and risk assessment methods				
11	Theoretical	OHS Management Systems				
12	Theoretical	OHS Management Systems				
13	Theoretical	Occupational safety practices and examples in health sector				
14	Theoretical	Occupational safety practices and examples in health sector				
15	Theoretical	Occupational safety practices and examples in health sector				
16	Final Exam	Final exam				

### Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	1	2	42
Midterm Examination	1	3	1	4
Final Examination	1	3	1	4
		Тс	otal Workload (Hours)	50
[Total Workload (Hours) / 25*] = ECTS				
*25 hour workload is accepted as 1 ECTS				

Learr	ning Outcomes
1	Analyze the current situation and need of the health sector in terms of Occupational Health and Safety.
2	To be able to explain the impact of occupational safety on productivity and generativity.
3	To be able to define and explain the basic principles, concepts and approaches of occupational health and safety management systems
4	To be able to suggest solutions in the direction of the needs analysis of health sector in scope of Occupational Health and Safety
5	Determine the measures to be taken in terms of Occupational Health and Safety in the health sector and suggest solutions

# 5 Determine the measures to be taken in terms of Occupational Health and Safety in the health sector and suggest solutions.

#### Programme Outcomes (Anesthesia)

<ul> <li>To be able to recall the knowledge about Ataturk's principles and the history of Turkish Revolution</li> <li>To be able to recall the knowledge about ethical and moral values</li> <li>To be able to recall the knowledge of Turkish grammer and be able to use it</li> <li>To be able to communicate effectively with patient, their family, and own team</li> <li>To be able to control, use, and maintain the anesthesia machines</li> <li>To be able to recall the information about anesthesia application in the system diseases</li> <li>To be able to recall the information about anesthesia application in the system diseases</li> <li>To be able to recall the issues that needed to be considered in follow-up of patients in intensive care.</li> <li>To be able to make the patiens' care in intensive care</li> <li>To be able to apply the cardiopulmonary resuscitation.</li> <li>To be able to apply the drug, liquid and blood to the patient.</li> <li>To be able to apply nasogastric tube to the patient and to aspirate.</li> <li>To be able to recall the drugs used in general anesthesia to patient.</li> <li>To be able to recall the drugs used in general and regional anesthesia process.</li> <li>Can help during the maintanence, ending and post anaesthesia process.</li> <li>Can communicate at the basic level of a foreign language and use this language in his job.</li> <li>Be able to communicate at a basic level in a foreign language and use this language in professional fields</li> <li>To be able to communicate at a basic level of a foreign language and use this language in professional fields</li> </ul>	riogia	annie Outcomes (Anestnesia)
3To be able to recall the knowledge about ethical and moral values4To be able to recall the knowledge of Turkish grammer and be able to use it5To be able to communicate effectively with patient, their family, and own team6To be able to control, use, and maintain the anesthesia machines7To be able to recall the information about anesthesia application in the system diseases8To be able to recall the issues that needed to be considered in follow-up of patients in intensive care.9To be able to apply the cardiopulmonary resuscitation.11To be able to apply the drug, liquid and blood to the patient.12To be able to assist the implementation of general anesthesia to patient.13To be able to recall the drugs used in general and regional anesthesia process.16Can help the practices of anesthesia and sedation outside the operation room.17Can communicate at the basic level of a foreign language and use this language in his job.18Be able to communicate at the basic level of basic sciences at the level of interest, to use specific medical terms and terminology of	1	To be able to recall basic knowledge about human anatomy
4To be able to recall the knowledge of Turkish grammer and be able to use it5To be able to communicate effectively with patient, their family, and own team6To be able to control, use, and maintain the anesthesia machines7To be able to recall the information about anesthesia application in the system diseases8To be able to recall the issues that needed to be considered in follow-up of patients in intensive care.9To be able to make the patiens' care in intensive care10To be able to apply the cardiopulmonary resuscitation.11To be able to apply the drug, liquid and blood to the patient.12To be able to assist the implementation of general anesthesia to patient.13To be able to recall the drugs used in general and regional anesthesia process.16Can help the practices of anesthesia and sedation outside the operation room.17Can communicate at the basic level of a foreign language and use this language in his job.18Be able to communicate at a basic level in a foreign language and be able to use this language in professional fields10To have the appropriate knowledge of basic sciences at the level of interest, to use specific medical terms and terminology of	2	To be able to recall the knowledge about Ataturk's principles and the history of Turkish Revolution
