Week	Weekly Detailed Course Contents	
1	Theoretical	The interior plant design, interior decoration, in terms of the importance of plants
2	Theoretical	Dictate the design and the influencing factors, the effect of the space, the user can influence the effect of the plant, the designer's influence, the effect of the employer.
3	Theoretical	According to the physical demands of the plant design, light, temperature, humidity and air quality, water, plants and soil, volume, plant weight, the harmonization process.
4	Theoretical	Indoor plant design principles, in combination with the basic design principles.
5	Theoretical	Groups of plants grown indoors, general maintenance operations
6	Theoretical	Ferns
7	Theoretical	Bromelias
8	Intermediate Exam	Mid-term exam
9	Theoretical	Cactuses
10	Theoretical	Bonsais
11	Theoretical	Ivies
12	Theoretical	Indoor plants are grown for the beauty of flowers
13	Theoretical	Indoor plants are grown for the beauty of the leaves
14	Theoretical	Examples of interior plant design
15	Theoretical	Practice exam
16	Final Exam	Final Exam

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	0	2	28
Assignment	1	0	12	12
Midterm Examination	1	4	1	5

Final Examination	1	4	1	5
Total Workload (Hours)				50
[Total Workload (Hours) / 25*] = ECTS				2
*25 hour workload is accepted as 1 ECTS				

Learning Outcomes

1	To be able to apprehend the importance of aesthetic and functional sense of the interior plant design
2	To be able to gain and improve the ability with the planting of ornamental plants.
3	To be able to comprehend the problems resulting from indoor plants used in landscape architecture.
4	Classify indoor ornamental plants, learning botanical names, temperature, light, humidity, etc. classify according to the wishes.
5	To learn plant growing environments and to learn plant production methods.

Programme Outcomes (Apiculture)

1	Understand to bee family (ecology, behavior), needs and diseases of bees. To make needs for healthy colony.
2	Produce of bee and bee products with modern techniques
3	Understand and use of tools and equipments used in Apiculture
4	Understand to nectar and pollen vegetables
5	To know nomadic apiculture conditions
6	Packing of bee products
7	Application to hygienic rules in apiculture enterprise
8	To have information of professional ethics and responsibility
9	Ability to work in team and individual
10	To communicate orally and in writing
