| 7    | Theoretical                     | According To The Load And Ship Types, Ocean Freight                               |
| 8    | Theoretical                     | Sea Management Types  |
| 9    | Theoretical                     | Midterm Exam  |
| 10   | Theoretical                     | Types Of Seaway Management  |
| 11   | Theoretical                     | Port Input And Output Documents, And Then Click                                   |
| 12   | Theoretical                     | Port Operations   |
| 13   | Theoretical                     | Documentation And Classification  |
| 14   | Theoretical                     | Insurance Contracts And Transport Equipment                                       |
| 15   | Theoretical                     | General Review  |
| 16   | Theoretical                     | Final exam  |

### Workload Calculation

| Activity                              | Quantity | Preparation | Duration | Total Workload |
|---------------------------------------|----------|-------------|----------|----------------|
| Lecture - Theory                      | 14       | 2           | 0        | 28             |
| Lecture - Practice                    | 14       | 2           | 0        | 28             |
| Assignment                            | 1        | 0           | 13       | 13             |
| Midterm Examination                   | 1        | 1           | 14       | 15             |
| Final Examination                     | 1        | 1           | 14       | 15             |
| Total Workload (Hours)                |          |             |          | 99             |
| [Total Workload (Hours) / 25*] = ECTS |          |             |          | 4              |

\*25 hour workload is accepted as 1 ECTS

**Learning Outcomes**

|   |  |
|---|--|
| 1 | Understanding the basic concepts of the science of the sea and the Port                        |
| 2 | -The economic importance of learning the ports   |
| 3 | The properties of the lower branches of the sea and the Port operation functions and knowledge |
| 4 | Defining the organizational and managerial aspects of port Enterprises                         |
| 5 | Turkey Provides the sea and Port in the world and modern development in learning               |
| 6 | Sea transport forms of learning  |
| 7 | -Maritime-related international organizations, learning  |
| 8 | Sea transport schoolwork, learning   |

**Programme Outcomes (Logistics)**

|    |  |
|----|--|
| 1  | Understanding of the basics needed for the mobility of production and consumption of goods.  |
| 2  | Provide warehouse and inventory management decisions.  |
| 3  | To decide on the mode of transport and handling equipment to be used.                        |
| 4  | Logistics information systems benefit from the process of the realization of the activities. |
| 5  | To dominate the national and international legislation regulating the field of logistics.    |
| 6  | Administration, management and marketing ideas and conducting.                               |
| 7  | Sensitivity to the requirements of professional ethics move                                  |
| 8  | Idea about the conduct of national and international transport policies.                     |
| 9  | Having written and oral communication skills.  |
| 10 | Current society and understand the world.  |

**Contribution of Learning Outcomes to Programme Outcomes** 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High
