AYDIN ADNAN MENDERES UNIVERSITY
COURSE INFORMATION FORM

Course Title	Economics								
Course Code	İTN213		Couse Level	Short Cycle (Associate's Degree)					
ECTS Credit	5	Workload	125 *(Hours)*	Theory	3	Practice	0	Laboratory	0
Objectives of the Course	The student, according to the science of economics, understand the basic features of the economy, to be ability analyze the effects of the balance of demand and supply factors affecting the market, the employment economic impact analysis of changes in the general level of prices and production levels composure with her ability analysis of supply and demand for money, and the effects of monetary and fiscal policies is to understand.								
Course Content	The basic principles of economy, economic systems, production, cost, market equilibrium, supply, demand, money								
Work Placement	N/A								
Planned Learning Activities and Teaching Methods	Explanation (Presentation)								
Name of Lecturer(s)									

Assessment Methods and Criteria		
Method	Quantity	Percentage (%)
Midterm Examination	1	40
Final Examination	1	70

Recommended or Required Reading	
1	Lecture notes

Week	Weekly Detailed Course Contents	
1	Theoretical	Know the basic concepts of the economy
2	Theoretical	Get to know methods of economic analysis and economic systems
3	Theoretical	To analyze the factors that determine the demand and elasticity of demand
4	Theoretical	To analyze the formation of consumer balance
5	Theoretical	To analyze the factors that determine the supply and elasticity of supply, to analyze the formation of producer balance
6	Theoretical	Get to know the basic concepts of production costs
7	Theoretical	Understand the formation of market equilibrium, demand to analyze the effects of the factors affecting the market balance
8	Theoretical	To analyze the effects of factors that affect the demand market balance
9	Theoretical	To analyze the effects of the factors affecting the market balance of supply
10	Theoretical	To analyze the economic effects of employment
11	Theoretical	To analyze the effects of changes in general level of prices, to analyze the effects of changes in the level of production
12	Theoretical	To analyze the supply and demand for money
13	Theoretical	monetary policies and the effects of understand
14	Theoretical	Understand the effects of and fiscal policy

Workload Calculation				
Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	0	3	42
Seminar	5	0	5	25
Project	1	0	10	10
Midterm Examination	1	20	0	20
Final Examination	1	28	0	28
			Total Workload (Hours)	125
			[Total Workload (Hours) / 25*] = **ECTS**	5
**25 hour workload is accepted as 1 ECTS*				

Learning Outcomes	
1	Be able to understand the basic features of the economy
2	Analyzing the behavior of consumers and producers
3	To analyze the changes in the balance of the market
4	To analyze the macro economic indicators
5	Monetary and fiscal policies will acquire the ability to follow.

Programme Outcomes *(Textile Technology)*	
1	1. To have basic theoretical and practical knowledge related to the field of textile technology, weaving, finishing process and pattern design. Be able to recognize problems, develop solutions for the problems, designing and having the ability to use theoretical knowledge in practical applications.
2	2. Be able to identify problems, develop solutions to the problems, be able to devise, to have the ability to use theoretical knowledge in practical applications by using acquired the basic knowledge and skills in the field. – Be able to choose technical equipments which are needed for applications in the field and use effectively. - Awareness of the need for life-long learning to follow developments in the textile technology, learning independently and to gain awareness of continuous self-renewal. - Be able to examine the application of production processes in the textile industry. – Be respectful to their own history and to be conscious about the subjects of social responsibility, universal and social and professional ethics.
3	3. To have basic theoretical and practical knowledge related to the field of textile technology, weaving, finishing process and pattern design. To be conscious about the subjects of job security, the information of environmental protection, quality awareness and being conscious of participating in team work.
4	4. Be able to identify problems, develop solutions to the problems, be able to devise, to have the ability to use theoretical knowledge in practical applications by using acquired the basic knowledge and skills in the field. - To be conscious about the subjects of job security, the information of environmental protection, quality awareness and being conscious of participating in team work.
5	5. Be able to examine the application of production processes in the textile industry. Be able to identify problems, to develop solutions to the problems, be able to devise, to have the ability to use theoretical knowledge in practical applications by using acquired the basic knowledge and skills in the field. Be respectful their own history and be conscious about the subjects of social responsibility, universal and social and professional ethics.
6	6. Be able to examine the application of production processes in the textile industry. To be aware solutions and applications of the effects of global and societal context in technician-level; being aware of entrepreneurship and innovation, and to have knowledge of the issues of the age.
7	7. To gain the knowledge and awareness of Ataturk's principles & reforms and using Turkish Langue effectively.
8	8. To gain the knowledge about his/her society and to gain a different point of view about the world
