| 1 | Course Notes |
|---|--------------|

| Week | Weekly Detailed Course Contents |                   |
|------|---------------------------------|-------------------|
| 1    | Practice                        | Sector experience |
| 2    | Practice                        | Sector experience |
| 3    | Practice                        | Sector experience |
| 4    | Practice                        | Sector experience |
| 5    | Practice                        | Sector experience |
| 6    | Practice                        | Sector experience |
| 7    | Practice                        | Sector experience |
| 8    | Practice                        | Sector experience |
| 9    | Practice                        | Sector experience |
| 10   | Practice                        | Sector experience |
| 11   | Practice                        | Sector experience |
| 12   | Practice                        | Sector experience |
| 13   | Practice                        | Sector experience |
| 14   | Practice                        | Sector experience |

### Workload Calculation

| Activity                                | Quantity | Preparation | Duration | Total Workload |
|---|----------|-------------|----------|----------------|
| Lecture - Practice                      | 30       | 0           | 6.5      | 195            |
| Total Workload (Hours)                  |          |             |          | 195            |
| [Total Workload (Hours) / 25*] = ECTS   |          |             |          | 8              |
| *25 hour workload is accepted as 1 ECTS |          |             |          |                |

### Learning Outcomes

|   |                                      |
|---|--------------------------------------|
| 1 | Internship to introduce his place    |
| 2 | Sector experience                    |
| 3 | Experience in using office equipment |
| 4 | Learning the office hierarchy        |
| 5 | Setting a career goal                |

**Programme Outcomes (Textile Technology)**

|   |   |
|---|---|
| 1 | 1. To have basic theoretical and practical knowledge related to the field of textile technology, weaving, finishing process and pattern design. Be able to recognize problems, develop solutions for the problems, designing and having the ability to use theoretical knowledge in practical applications.   |
| 2 | 2. Be able to identify problems, develop solutions to the problems, be able to devise, to have the ability to use theoretical knowledge in practical applications by using acquired the basic knowledge and skills in the field. – Be able to choose technical equipments which are needed for applications in the field and use effectively. - Awareness of the need for life-long learning to follow developments in the textile technology, learning independently and to gain awareness of continuous self-renewal. - Be able to examine the application of production processes in the textile industry. – Be respectful to their own history and to be conscious about the subjects of social responsibility, universal and social and professional ethics. |
| 3 | 3. To have basic theoretical and practical knowledge related to the field of textile technology, weaving, finishing process and pattern design. To be conscious about the subjects of job security, the information of environmental protection, quality awareness and being conscious of participating in team work.   |
| 4 | 4. Be able to identify problems, develop solutions to the problems, be able to devise, to have the ability to use theoretical knowledge in practical applications by using acquired the basic knowledge and skills in the field. - To be conscious about the subjects of job security, the information of environmental protection, quality awareness and being conscious of participating in team work.  |
| 5 | 5. Be able to examine the application of production processes in the textile industry. Be able to identify problems, to develop solutions to the problems, be able to devise, to have the ability to use theoretical knowledge in practical applications by using acquired the basic knowledge and skills in the field. Be respectful their own history and be conscious about the subjects of social responsibility, universal and social and professional ethics.   |
| 6 | 6. Be able to examine the application of production processes in the textile industry. To be aware solutions and applications of the effects of global and societal context in technician-level; being aware of entrepreneurship and innovation, and to have knowledge of the issues of the age.  |
| 7 | 7. To gain the knowledge and awareness of Atatürk's principles & reforms and using Turkish Language effectively.  |
| 8 | 8. To gain the knowledge about his/her society and to gain a different point of view about the world  |
