

## AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

| Course Title   | Basic Informa  | gies   |  |   |                                  |                |            |   |
|--|----------------|--|--|---|----------------------------------|----------------|------------|---|
| Course Code  | ENF105         |  | Couse Level  |   | Short Cycle (Associate's Degree) |                |            |   |
| ECTS Credit 4  | Workload       | 100 (Hours)  | Theory   | 3   | Practice                         | 0              | Laboratory | 0 |
| Objectives of the Course   | make advance   | components of the computer, to have knowledge about computer functions, to as for education with various software, to enhance their knowledge on ion technologies. |  |   |                                  |                |            |   |
| Course Content  The main components of the computer system: Processor, input-output units, storage and other peripherals; Operating systems: Ability to work effectively in the operating system, system custom and management, Introduction of utility softwares: Archiving programs, audio / video player program screen recording programs etc. Word processing programs: Text and page editing, working with timages and graphics, creating forms, letters and labels. Customizing menu and toolbars. Macros advanced applications. Electronic spreadsheet programs: Electronic Spreadsheets, creating temp with data such as figures, words, and dates, chart drawing, performing mathematical, logical and based operations, macros, standard and user-defined functions. Data presentation programs: Creating temps of the programs of the programs of the program of t |                |  |  | mization<br>grams,<br>tables,<br>s and<br>pplate<br>d text<br>reating |                                  |                |            |   |
| Work Placement   | N/A            |  |  |   |                                  |                |            |   |
| Planned Learning Activities and Teaching Methods   |                | Methods  | Explanation (Presentation), Demonstration, Project Based Study, Individual Study |   |                                  |                |            |   |

| 8    | Intermediate Exam               | Mid-term exam                                      |  |  |
| 9    | Theoretical                     | Spreadsheet  |  |  |
| 10   | Theoretical                     | Spreadsheet  |  |  |
| 11   | Practice                        | Spreadsheet  |  |  |
| 12   | Practice                        | Internet Applications on Education                 |  |  |
| 13   | Theoretical                     | Presentation software                              |  |  |
| 14   | Practice                        | Utility programs (Compression, image editing, pdf) |  |  |
| 15   | Theoretical                     | Computer security and ethics                       |  |  |
| 16   | Final Exam                      | Final Exam   |  |  |

| Workload Calculation |          |             |          |                |  |
|----------------------|----------|-------------|----------|----------------|--|
| Activity             | Quantity | Preparation | Duration | Total Workload |  |
| Lecture - Theory     | 14       | 1           | 3        | 56             |  |
| Project              | 1        | 5           | 1        | 6              |  |
| Studio Work          | 14       | 1           | 1        | 28             |  |
| Midterm Examination  | 1        | 4           | 1        | 5              |  |

| Final Examination                       | 1 |  | 4                 | 1                           | 5   |
|---|---|--|-------------------|-----------------------------|-----|
|   |   |  | To                | otal Workload (Hours)       | 100 |
|   |   |  | [Total Workload ( | Hours) / 25*] = <b>ECTS</b> | 4   |
| *25 hour workload is accepted as 1 ECTS |   |  |                   |                             |     |

| Learn | ning Outcomes  |
|-------|--|
| 1     | Can define the basic components of the computer system (Processor, input-output units, storage and other peripherals). |
| 2     | Can work effectively with operating systems.   |
| 3     | Can create texts in various formats in the word processing program.  |
| 4     | Can make advanced applications with word processing programs.  |
| 5     | Can make applications with "form control" in the electronic spreadsheet program.                                       |
| 6     | Can work with macros in the electronic spreadsheet program.  |
| 7     | Can make advanced applications with electronic spreadsheet programs.   |
| 8     | Can make advanced applications with data presentation programs.  |
