

## AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

|  |   |  |            |   |   |                                  |   |            |   |
|--|---|--|------------|---|---|----------------------------------|---|------------|---|
| Course Title                                     |   | Professional Foreign Language-I  |            |   |   |                                  |   |            |   |
| Course Code                                      |   | MRS292   |            | Course Level  |   | Short Cycle (Associate's Degree) |   |            |   |
| ECTS Credit                                      | 2 | Workload   | 50 (Hours) | Theory  | 2 | Practice                         | 0 | Laboratory | 0 |
| Objectives of the Course                         |   | In this course, students; knowledge of basic professional language with basic professional concepts and definitions aimed to gain competencies.  |            |   |   |                                  |   |            |   |
| Course Content                                   |   | General knowledge of English will be the basis for professional language proficiency, the term commonly used in the field of machinery manufacturing, words and concepts, tools used in machine manufacturing workshops, machines and components used in machine manufacturing workshop, basic identification patterns, numerical values and quantities, mathematical terms and four basic operations, shapes and colors, one, two and three-dimensional shapes, flat and curved-edged shapes, angles. |            |   |   |                                  |   |            |   |
| Work Placement                                   |   | N/A  |            |   |   |                                  |   |            |   |
| Planned Learning Activities and Teaching Methods |   |  |            | Explanation (Presentation), Demonstration, Individual Study |   |                                  |   |            |   |
| Name of Lecturer(s)                              |   | Ins. Alpaslan BAŞARIK  |            |   |   |                                  |   |            |   |

### Assessment Methods and Criteria

| Method              | Quantity | Percentage (%) |
|---------------------|----------|----------------|
| Midterm Examination | 1        | 40             |
| Final Examination   | 1        | 70             |

### Recommended or Required Reading

|   |  |
|---|--|
| 1 | Auxiliary books, applications and other resources leaves |
|---|--|

| Week | Weekly Detailed Course Contents |   |
|------|---------------------------------|---|
| 1    | Theoretical                     | Updating of general knowledge of English language proficiency as the basis for vocational again |
| 2    | Theoretical                     | Updating of general knowledge of English language proficiency as the basis for vocational again |
| 3    | Theoretical                     | Machinery Manufacturing in the Field of Frequently Used Terms, Words and Concepts               |
| 4    | Theoretical                     | Hand tools used in machinery manufacturing workshop   |
| 5    | Theoretical                     | Machines and components used in machinery manufacturing workshop                                |
| 6    | Theoretical                     | Basic Definitions Patterns  |
| 7    | Theoretical                     | Basic Definitions Patterns  |
| 8    | Theoretical                     | Numerical Value and Quantities  |
| 9    | Intermediate Exam               | MIDTERM   |
| 10   | Theoretical                     | Mathematical Terms and Four Basic Computing   |
| 11   | Theoretical                     | Mathematical Terms and Four Basic Computing   |
| 12   | Theoretical                     | Shapes and Colors   |
| 13   | Theoretical                     | One, two and the three dimensional figures  |
| 14   | Theoretical                     | Straight and Curved Edge Shapes   |
| 15   | Theoretical                     | angles  |
| 16   | Final Exam                      | FINAL EXAM  |

### Workload Calculation

| Activity                              | Quantity | Preparation | Duration | Total Workload |
|---------------------------------------|----------|-------------|----------|----------------|
| Lecture - Theory                      | 14       | 0           | 2        | 28             |
| Assignment                            | 2        | 0           | 5        | 10             |
| Midterm Examination                   | 1        | 5           | 1        | 6              |
| Final Examination                     | 1        | 5           | 1        | 6              |
| Total Workload (Hours)                |          |             |          | 50             |
| [Total Workload (Hours) / 25*] = ECTS |          |             |          | 2              |

\*25 hour workload is accepted as 1 ECTS

**Learning Outcomes**

|   |   |
|---|---|
| 1 | To be able to comprehend the importance of professional foreign language knowledge                |
| 2 | Ability to understand and use professional terms  |
| 3 | To have enough knowledge about the profession in a foreign language                               |
| 4 | To be able to express his / her thoughts in the field by using basic definitions and concepts     |
| 5 | To be able to read and understand documents written in foreign language related to the profession |

**Programme Outcomes (Fashion Design)**

|    |   |
|----|---|
| 1  | Be able to use the theoretical and practical knowledge related to fashion design  |
| 2  | Fashion marketing and promotional activities should be carried out in matters related to fashion design   |
| 3  | Must be able to collect data for research, prepare and present research report, prepare project   |
| 4  | Designing personal clothing to meet the expectations of the sector and preparing the creations on the computer  |
| 5  | Should be able to recognize the fabric surfaces, select auxiliary materials, control materials.   |
| 6  | It should be able to carry out steps of mold preparation, spreading, laying plan preparation.   |
| 7  | Must be able to use the necessary equipment, equipment and machines for the applications related to fashion design, and make adjustments and maintenance. |
| 8  | Must be able to use computerized mold and design programs in the field of fashion design.   |
| 9  | Must have the ability to manage and organize business by creating the idea of establishing a business in the field.                                       |
| 10 | Can create a model she designs in her mind by applying the technical drawings of the clothes and fashion formal training.                                 |
| 11 | Basic sewing techniques should be able to realize the production stages of women's, men's and children's wear.  |

**Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High**

|    |    |
