

AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title	Colics in Horses								
Course Code	VH505	Course Level			Second Cycle (Master's Degree)				
ECTS Credit	4	Workload	104 (Hours)	Theory	1	Practice	0	Laboratory	0
Objectives of the Course	The odds of suffering from symptoms of pain clinical examination scheme, common gripes, the real pains etiology, clinical findings, diagnosis, differential diagnosis, prognosis and treatment.								
Course Content	Atlarda sık rastlanan semptomlardan olan sancıda klinik muayene şeması, sancı çeşitleri, gerçek sancıların etyoloji, klinik bulgular, tanı, ayırıcı tanı, prognoz ve tedavilerinin incelenmesidir.								
Work Placement	N/A								
Planned Learning Activities and Teaching Methods	Explanation (Presentation), Demonstration, Discussion, Case Study, Individual Study, Problem Solving								
Name of Lecturer(s)									

Assessment Methods and Criteria		
Method	Quantity	Percentage (%)
Assignment Examination	3	15
Midterm Examination	1	25
Final Examination	1	60

Recommended or Required Reading

Week	Weekly Detailed Course Contents & Teaching Methods	
1	Theoretical	Clinical Examination Scheme in The Painful Horses
2	Theoretical	Laboratory Examination in The Painful Horses
3	Theoretical	General Methods Of Treatment in The Painful Horses
4	Theoretical	Acute Gastric Dilatation
5	Theoretical	Small intestinal Constipation
6	Theoretical	Large intestinal Constipation
7	Theoretical	Topic repetition (Mid-term exam)
	Preparation Work	Topic repetition
8	Theoretical	Intestinal Obstruction -Sand Colic
9	Theoretical	Meteorismus intestini, Enterelgia catharalis
10	Theoretical	Pathologic disorders , Thrombo-Embolic colic
11	Theoretical	Pain induced gastroenteritis
12	Theoretical	Causes The Extra Abdominal of Pain I (Respiratory, skeleton-muscle)
13	Theoretical	Causes The Extra Abdominal of Pain II (Neurolojical system)
14	Theoretical	Painfull with the diseases prevention methods in Horses

Workload Calculation				
Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	0	1	14
Assignment	3	0	15	45
Reading	14	0	2	28
Midterm Examination	1	5	1	6

Final Examination	1	10	1	11
			Total Workload (Hours)	104
			[Total Workload (Hours) / 25*] = ECTS	4
*25 hour workload is accepted as 1 ECTS				

Learning Outcomes

1	
2	
3	
4	Can ability for patient control
5	display the patient to the lecturers

Programme Outcomes (Internal Diseases (Veterinary Medicine) Master)

1	Among veterinary medicine master of science sufficiency, increasing and deepening relevant knowledge
2	Developing and deepening theoretical and practical knowledge in the field of use, integrating knowledge from different disciplines for interpretation.
3	For Large and Small Animal Internal Medicine, taking into account the systemic clinical examination, realizing the true diagnosis for interpreting the clinical and laboratory findings, and the need to implement effective and rational treatment for taking prophylactic measures.
4	Learning how to access and evaluate relevant information.
5	Quoting updated novelty relevant to Veterinary Internal Medicine by incrisptive, oral and visually.
6	Planning a relevant research study by use of quantative and qualitative data collection, contiuning by taking care of scientific ethics, and by evaluation of appropriate statistical methods chosen, converting the investigational and project results into report/thesis.
7	Information obtained in accordance with the requirements of the country and the level of expertise of the region for usage of research public and animal health.

Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High
