| Week | Weekly Detailed Course | se Contents | | | | | |
|------|------------------------|--|--|--|--|--|--|
| 1 | Theoretical | foods and dietary patterns that cause allergies in dogs and cats | | | | | |
| 2 | Theoretical | dietary patterns which should be accompanied to medical treatment of allergie in cats and dogs | | | | | |
| 3 | Theoretical | The importance of diet shape and nutrition in dogs cardiomyopathy | | | | | |
| 4 | Theoretical | gastroenteritis due to nutritional problems in dogs and cats | | | | | |
| 5 | Theoretical | The Role of Diet in the prevention and treatment of acute and Chronic Gastritis | | | | | |
| 6 | Theoretical | The role of proper nutrition in diarrhea treatment | | | | | |
| 7 | Theoretical | The Role of Diet in the Treatment of Colitis | | | | | |
| 8 | Intermediate Exam | midterm | | | | | |
| 9 | Theoretical | Foods that can cause Hepatopaty | | | | | |
| 10 | Theoretical | Proper Nutrition in Hepatopathy | | | | | |
| 11 | Theoretical | Proper Diet and Nutrition models in Chronic Kidney Disease | | | | | |
| 12 | Theoretical | Role of Nutrition in Diabetes Mellitus | | | | | |
| 13 | Theoretical | Nutrition Proper Diet in Diabetes Mellitus | | | | | |
| 14 | Theoretical | General and Specific Criteria in dietary treatment | | | | | |
| 15 | Theoretical | discussion | | | | | |
| 16 | Final Exam | final | | | | | |

Workload Calculation

| Activity | Quantity | Preparation | Duration | Total Workload |
|---------------------|----------|-------------|----------|----------------|
| Lecture - Theory | 14 | 0 | 1 | 14 |
| Assignment | 4 | 0 | 10 | 40 |
| Reading | 14 | 0 | 2 | 28 |
| Midterm Examination | 1 | 5 | 1 | 6 |

| | | | | | Course Information Fo | |
|---|---|--|-------------------|-----------------------------|-----------------------|--|
| Final Examination | 1 | | 10 | 1 | 11 | |
| | | | Тс | otal Workload (Hours) | 99 | |
| | | | [Total Workload (| Hours) / 25*] = ECTS | 4 | |
| *25 hour workload is accepted as 1 ECTS | | | | | | |

Learning Outcomes

| | - | | | |
|---|--|-------|--|--------|
| 1 | Learns the role of diet therapy in allergies, gastrointed dogs and cats. | stina | I, dermatological, cardiovascular, urinary and endocrine disorde | ers in |
| 2 | Adopts the general and specific criteria in diet therap | у. | | |
| 3 | Provides a sense of prophylactic protection from vari | ous c | diseases with this learned information in animals via nutrition. | |
| 4 | Regulates the diets of clinical patients. | | | |
| 5 | Gains knowledge of total parenteral nutrition. | | | |

Programme Outcomes (Internal Diseases (Veterinary Medicine) Master)

| - | |
|---|---|
| 1 | Among veterinary medicine master of science sufficiency, increasing and deepening relevant knowledge |
| 2 | Developing and deepening theoretical and practical knowledge in the field of use, integrating knowledge from different disciplines for interpretation. |
| 3 | For Large and Small Animal Internal Medicine, taking into account the systemic clinical examination, realizing the true diagnosis for interpreting the clinical and laboratory findings, and the need to implement effective and rational treatment for taking prophylactic measures. |
| 4 | Learning how to access and evaluate relevant information. |
| 5 | Quoting updated novelty relevant to Veterinary Internal Medicine by incrisptive, oral and visually. |
| 6 | Planning a relevant research study by use of quantative and qualitative data collection, continiuing by taking care of scientific ethics, and by evaluation of appropriate statistical methods chosen, converting the investigational and project results into report/thesis. |
| 7 | Information obtained in accordance with the requirements of the country and the level of expertise of the region for usage of research public and animal health. |

Contribution of Learning Outcomes to Programme Outcomes 1: Very Low, 2: Low, 3: Medium, 4: High, 5: Very High
