Week	Weekly Detailed Cours	se Contents						
1	Theoretical	Introduction to the course						
2	Theoretical	Status of common chronic diseases in children in our country and the world						
	Preparation Work	Literature search; Status of common chronic diseases in children in our country and the world						
3	Theoretical	Status of common chronic diseases in children in our country and the world-continued						
	Preparation Work	Literature search; Status of common chronic diseases in children in our country and the world-continued						
4	Theoretical	Chronic diseases and nursing approaches.						
	Preparation Work	Literature search; Chronic diseases and nursing approaches.						
5	Theoretical	Chronic diseases and nursing approaches (Continued)						
	Preparation Work	Literature search; Chronic diseases and nursing approaches (Continued)						
6	Preparation Work	Study for Exam						
	Intermediate Exam	Midterm Exam I						

7	Theoretical	Care management and rehabilitation of children with chronic disease						
	Preparation Work	Literature search ;Care management and rehabilitation of children with chronic disease						
8	Theoretical	Current approaches to treatment and care of chronic diseases						
	Preparation Work	Literature search; Current approaches to treatment and care of chronic diseases						
9	Theoretical	Current approaches to treatment and care of chronic diseases (Continued)						
	Preparation Work	Literature search; Current approaches to treatment and care of chronic diseases (Continued)						
10	Theoretical	The effect of chronic diseases in children and family						
	Preparation Work	Literature search;The effect of chronic diseases in children and family						
11	Theoretical	The effect of chronic diseases in children and family (Continued)						
	Preparation Work	Literature search;The effect of chronic diseases in children and family (Continued)						
12	Preparation Work	Study for Exam						
	Intermediate Exam	Midterm Exam II						
13	Theoretical	Children and their families to cope with illness						
	Preparation Work	Literature search; Children and their families to cope with illness						
14	Theoretical	Help Children and their families to cope with illness						
	Preparation Work	Literature search;Help Children and their families to cope with illness						
15	Theoretical	course evaluation						
16	Preparation Work	Study for Exam						
	Final Exam	Final Exam						

Workload Calculation									
Activity		Quantity	Preparation		Duration	Total Workload			
Lecture - Theory		14		2	2	56			
Midterm Examination		2		14	2	32			
Final Examination		1		8	2	10			
	Total Workload (Hours)								
[Total Workload (Hours) / 25*] = ECTS									
*25 hour workload is accepted as 1 ECTS									

Learn	ning Outcomes
1	Explain the status of common chronic diseases in children in our country and the world.
2	Discuss approaches to treat chronic diseases, and nursing
3	Say the care management and rehabilitation of children with chronic disease
4	Explain the current approaches to treatment and care of chronic diseases
5	Discuss the impact of chronic diseases on children and their families.
6	Discuss the issue of helping coping the illness to children and their families

Progr	amme Outcomes (Pediatric Nursing Master)
1	To be able to comprehend the changing concepts and new applications in the field of pediatric nursing.
2	To be able to comprehend children's health problems; propose solutions and health-related policies
3	To be able to Become aware of the role and functions of pediatric nurses
4	To be able to comprehend the development of a healthy child
5	To be able to Become aware and sensitive about children's rights
6	To be able to Become sensitive about the factors that could affect and change the health and development of children in their daily life.
7	To Be able to identify child care needs, in a holistic and humanistic approach to care giving.
8	To be able to comprehend the importance of lifelong learning and professional development and providing adequate and effective care.
9	To be able to Execute their role adequately and effectively in a health care team.
10	To be able to comprehend care management and rehabilitation of children with life-threatening and chronic diseases.
11	To be able to Execute the art and science of Pediatric Nursing in a evidence-based manner.
12	To be able to Become sensitive to the ethical problems that affect children and their families.
13	To be able to Develop a consciousness of professional nursing.
