

AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title	Evidence-Based Nursing								
Course Code	CHH534		Course Level		Second Cycle (Master's Degree)				
ECTS Credit	4	Workload	100 (Hours)	Theory	2	Practice	0	Laboratory	0
Objectives of the Course	To gain access to evidence-based nursing information by comprehending evidence-based nursing practices and classifications and to gain the principles of use in practice areas.								
Course Content	This course includes topics like these; Evidence, Evidence-based practice, Historical development, causes and purposes of evidence-based practice, Obtaining reliable evidence, Stages of the evidence-based practice process, Evidence-based practices and nursing, Obstacles and facilitators in evidence-based nursing practice, Evidence level classifications, Evidence-based practice resources; systematic review, randomized controlled trial, case-controlled study, Evidence-based practice resources; cohort study, observation, Ways of accessing evidence, STE guides, STE nursing centers, internet resources, Evidence application, clinical activities, Evidence-based practice examples; pain management, Evidence-based practice examples; oncology nursing, Evidence-based practice examples; surgical nursing, course evaluation.								
Work Placement	N/A								
Planned Learning Activities and Teaching Methods	Explanation (Presentation), Discussion, Individual Study								
Name of Lecturer(s)									

Assessment Methods and Criteria

Method	Quantity	Percentage (%)
Midterm Examination	1	40
Final Examination	1	60

Week	Weekly Detailed Course Contents	
1	Theoretical	Evidence, Evidence-based practice
2	Theoretical	Historical development, causes and aims of evidence-based practice
3	Theoretical	Obtaining reliable evidence
4	Theoretical	Stages of the evidence-based practice process
5	Theoretical	Evidence-based practice and nursing
6	Theoretical	Barriers and facilitators in evidence-based nursing practice
7	Theoretical	Evidence level classifications
8	Intermediate Exam	MİDTERM EXAM
9	Theoretical	Evidence-based practice resources; systematic review, randomized controlled trial, case-controlled trial, cohort study, observation
10	Theoretical	Ways to access evidence, STE guides, STE nursing centers, internet resources
11	Theoretical	Application of evidence, clinical efficacy
12	Theoretical	Evidence-based practice examples (pain management, surgical site infections)
13	Theoretical	Evidence-based practice examples (oncology nursing, central venous catheter-related infections)
14	Theoretical	Evidence-based practice examples (gastrointestinal surgical nursing, accelerated recovery protocols)

15	Theoretical	Course evaluation

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	0	2	28
Midterm Examination	1	30	1	31
Final Examination	1	40	1	41
			Total Workload (Hours)	100
			[Total Workload (Hours) / 25*] = ECTS	4

*25 hour workload is accepted as 1 ECTS

Learning Outcomes

1	Ability to describe evidence-based nursing practices and degrees
2	Knowing which databases to access research evidence to be used in practice
3	To be able to explain the contributions of evidence-based nursing to the profession / field of practice.
4	Knowing the evidence-based nursing practice process and the barriers in practice
5	To be able to express what needs to be done for the implementation of evidence-based nursing practices

Programme Outcomes (Surgical Nursing Master)

1	To be able to reach at the scientific information on nursing, follow the up-to-date literature, evaluate and practice it.
2	To be able to Convert the theoretical and practical speciality level information acquired in the field of nursing of surgical diseases into behaviour
3	To be able to Solve problems requiring specialization by using scientific research methods
4	To be able to Criticize the advanced information and skills obtained in the field of nursing of surgical diseases
5	To be able to Relay the current affairs and her own studies in the field of surgical nursing systematically in writing, verbally and visually to the groups of her own field and others groups
6	To be able to Communicate verbally and in writing in at least one language at Level B2 of European Language Portfolio Global Scale ("European Language Portfolio Global Scale", Level B2)
7	To be able to Implement the information digested in the field of surgical nursing and problem solving abilities among the inter disciplinary studies
8	To be able to Behave according to the social, scientific and vocational ethical values
