Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	0	2	28
Midterm Examination	1	34	2	36
Final Examination	1	34	2	36
Total Workload (Hours)				100
[Total Workload (Hours) / 25*] = ECTS				4

*25 hour workload is accepted as 1 ECTS

Learning Outcomes

1	To be able to state the primary and secondary evaluation of the patient presenting to the emergency service, principles of triage and the importance of ethical principles in triage
2	To be able to recognize patients' rights in accordance with the ethical principles of the profession during all the interventions the patient to undergo
3	To be able to recognize the importance of teamwork in emergency interventions
4	To be able to define needed emergencies principles in emergency injury and environmental emergency situations
5	To be able to recognize the importance of evidence-based nursing care in emergency situations of chronic diseases (asthma attacks, diabetic ketoacidosis, hypoglycemia, etc.) or acute illness (AMI, ARDS, stroke, etc.)

Programme Outcomes (Medical Nursing Master)

1	Utilize/apply the concepts, theories and principles of nursing science
2	Demonstrate advance competence in practice of nursing
3	Practice as a nurse specialist.
4	Demonstrate leadership qualities and function effectively as nurse educator and manager.
5	Demonstrate skill in conducting nursing research, interpreting and utilizing the findings from health related research.
6	Establish collaborative relationship with members of other disciplines
7	Demonstrate interest in continued learning for personal and professional advancement.

Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High
