

AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title		Applied Statistics							
Course Code		TUR502		Course Level		Second Cycle (Master's Degree)			
ECTS Credit	5	Workload	125 (<i>Hours</i>)	Theory	3	Practice	0	Laboratory	0
Objectives of the Course		It is aimed at analyzing and interpreting the results of the parametric and nonparametric tests in the light of scientific research methods.							
Course Content		Information will be given about descriptive statistics, introduction of SPSS, correlation, comparison of means, regression analysis, cluster analysis, scale reliability, factor analysis, multivariate analysis of variance (MANOVA) and nonparametric tests.							
Work Placement		N/A							
Planned Learning Activities and Teaching Methods				Explanation (Presentation), Demonstration, Discussion, Case Study, Project Based Study, Individual Study, Problem Solving					
Name of Lecturer(s)		Prof. Abdullah TANRISEVDİ							

Assessment Methods and Criteria

Method	Quantity	Percentage (%)
Midterm Examination	1	20
Final Examination	1	30
Practice	14	20
Quiz	4	10
Assignment	7	10
Term Assignment	1	10

Recommended or Required Reading

5	Articles and theses

Week	Weekly Detailed Course Contents	
1	Theoretical	Information will be given about the basic terms (quantitative research process, variables, determining hypothesis/research questions, scales).
2	Theoretical	Practices will be done about data input by introducing SPSS menus.
3	Theoretical	Information will be given about missing value analysis, normal distribution analysis, tables, graphics, descriptive statistics.
4	Theoretical	Information will be given about bivariate and partial correlation
5	Theoretical	Comparing means I
6	Theoretical	Comparing means II
7	Theoretical	Comparing means III
8	Intermediate Exam	Midterm Exam
9	Theoretical	Information will be given about simple and multiple regression analyses.
10	Theoretical	Information will be given about cluster analysis.
11	Theoretical	Information will be given about scale reliability analyses.
12	Theoretical	Information will be given about Factor analysis.
13	Theoretical	Information will be given about MANOVA.
14	Theoretical	Information will be given about nonparametric tests.
15	Theoretical	General revision will be done.

16	Final Exam	Final exam
----	------------	------------

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	15	1	2	45
Laboratory	15	3	1	60
Midterm Examination	1	8	1	9
Final Examination	1	10	1	11
Total Workload (Hours)				125
[Total Workload (Hours) / 25*] = ECTS				5

*25 hour workload is accepted as 1 ECTS

Learning Outcomes

1	He/ she could select correct statistics (the most suitable for hypothesis/research questions)
2	He/ she could analyze and interpret descriptive and multivariate statistics
3	He/ she could use and operate SPSS program effectively
4	He/ she could set assumptions and models in structural equation modelling.
5	He/ she could run path analysis and interpret the results.

Programme Outcomes (*Tourism Management Master's Without Thesis*)

1	To be able to train specialists who develops knowledge and skills based on the Bachelor's Degree in Tourism field and who can evaluate the sector in the point of view interdisciplinary structure of tourism management.
2	To be able to analyze the socio-economic and the managerial problems both interactionally and separately
3	To be able to produce knowledge about the studies, which have not been presented before towards the primary data sources.
4	To be able to convey recent developments in the field of tourism management to the stakeholders by using verbal, written and visual means systematically.
5	To be able to develop a solving method independently for a problem faced in tourism management, evaluate the outcomes of the problem and take roles in projects related to the field as a coordinator or a participant.

Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High

	L1	L2	L3	L4	L5
P1	4	3	4	4	3
P2	4	4	5	3	4
P3	4	3	4	4	3
P4	4	4	3	3	4
P5	4	3	4	4	3
