

AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title		Organization Management and Governance Techniques in Banks							
Course Code		BFN572		Couse Level		Second Cycle (Master's Degree)			
ECTS Credit	5	Workload	125 (<i>Hours</i>)	Theory	3	Practice	0	Laboratory	0
Objectives of the Course		To teach the operations carried out within the Strategic Bank Management and the divisions and the organizational management of these areas, to transfer the quantitative models of risk / capital required for Bank management and calculation techniques to the students. In addition to increasing the theoretical knowledge of students in the field of banking, pioneering the development of daily practices and decision-making processes within the framework of international "best practice" forms the priority agenda of the program. Establishing management models of the risk / return / liquidity / capital parameters required for the management of the bank and addressing international banking practices within the framework of Europe, America, Japan and developing countries constitute the main priorities of the program.							
Course Content		Formation of contemporary banking management models to be supported by the quantitative and qualitative management models of a bank's Strategic, Divisive and Operational dimension by examining the alternative typology of banking in the international dimension together with the functioning of the central banks. Practical and theoretical transfer of current topics and problem solutions to students.							
Work Placement		N
