	Preparation Work	Research and reading

7	Theoretical	All aspects of obstetric surgery and cesarean
	Preparation Work	Research and reading
8	Preparation Work	Research and reading
	Intermediate Exam	Midterm exam
9	Theoretical	Normal birth after cesarean
	Preparation Work	Research and reading
10	Theoretical	All births in health facilities and at home performed analysis in our country
	Preparation Work	Research and reading
11	Theoretical	Non-hospital birth and midwifery approach
	Preparation Work	Research and reading
12	Theoretical	Effect of the intervention in the natural process of labor
	Preparation Work	Research and reading
13	Theoretical	Follow-up role in the birth of Midwives
	Preparation Work	Research and reading
14	Theoretical	Article presentation
	Preparation Work	Research and reading
15	Preparation Work	Research and reading
	Final Exam	Final exam

### Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	13	4	2	78
Seminar	2	12	2	28
Individual Work	13	5	0	65
Midterm Examination	1	10	2	12
Final Examination	1	12	2	14
Total Workload (Hours)				197
[Total Workload (Hours) / 25*] = ECTS				8

\*25 hour workload is accepted as 1 ECTS

### Learning Outcomes

1	To be able to explain the physiology of normal birth
2	To be able to evaluate the status of the mother and the fetus in labor
3	To be able to identify the needs of the mother and newborn care and plan appropriate care
4	To be able to explain the method of delivery
5	To be able to provide at birth women / family-centered care and satisfaction
6	To be able to make of all births in health facilities and at home performed analysis and interpretation in our country
7	evidence-based care and practice knowing and applying intrapartum period
8	To be able to integrate issues related to the educational process and improve independent learning, reading, studying and research skills

### Programme Outcomes (Midwifery Doctorate)

1	To be able to develop and deepen in the level of expertise with original thinking and / or research in recent and advanced information in the midwifery area as based on midwifery postgraduate qualification, and to create the original definitions bring innovation to the area, to evaluate and use new information in a systematic approach
2	To be able to develop the new / known idea, method and / or application included innovation to the midwifery science and art using the mental processes as creative and critical thinking, problem solving and decision making, to applies to the different area, to make the critical analysis, synthesis and evaluation of new and complex ideas.
