

## AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

| Course Title                |   |   |                   |                                |                              |  |          |  |
|-----------------------------|---|---|-------------------|--------------------------------|------------------------------|--|----------|--|
| Course Code                 | ZPM506  | Couse Level   |                   | Second Cycle (Master's Degree) |                              |  |          |  |
| ECTS Credit 8               | Workload 200 (Hours)  | Theory  | 3                 | Practice                       | 0                            | Laboratory                               | 0        |  |
| Objectives of the Course    | planning and design princip   | At the end of the course, it is provided that the students to learn the basic concepts of pedestrian zones, planning and design principles of pedestrian zones, applications and solutions in the field of landscape architecture with the examples from the world and Turkey |                   |                                |                              |  |          |  |
| Course Content              | The contents of the course subject, classifications on t design principles, examinat elements used in pedestria | he subject, th  | e historical      | development or country and     | of pedestria<br>other countr | n zones, planning<br>ies, urban furnitur | and<br>e |  |
| Work Placement              |   |   |                   |                                |                              |  |          |  |
| Planned Learning Activities | Explanation Study   | (Presenta   | tion), Discussion | on, Project E                  | Based Study, Indiv           | /idual                                   |          |  |
| Name of Lecturer(s)         | DENİZ   |   |                   |                                |                              |  |          |  |

| Assessment Methods and Criteria |          |                |  |  |  |  |
|---------------------------------|----------|----------------|--|--|--|--|
| Method                          | Quantity | Percentage (%) |  |  |  |  |
| Midterm Examination             | 1        | 30             |  |  |  |  |
| Final Examination               | 1        | 40             |  |  |  |  |
| Term Assignment                 | 1        | 30             |  |  |  |  |

## **Recommended or Required Reading**

- Argönül E., Gümez, S., Sönmez T., 1994. "İzmir Kenti Örneğinde Yaya Bölgeleri", Ege Üniversitesi, Ziraat Fakültesi, Peyzaj Mimarlığı Bölümü, Lisans Tezi, İzmir
- 2 Perçin, H., Yılmaz, O., 2001. "Yaya Bölgeleri", Peyzaj Mimarları Odası Yayınları, Ankara

| Week | Weekly Detailed Course Contents |  |  |  |  |  |
|------|---------------------------------|--|--|--|--|--|
| 1    | Theoretical                     | Introduction, scope,importance, method of operation and requirements of the course |  |  |  |  |
| 2    | Theoretical                     | Basic concepts - definitions related to pedestrian zones                           |  |  |  |  |
| 3    | Theoretical                     | Historical development of pedestrian zones   |  |  |  |  |
| 4    | Theoretical                     | Historical development of pedestrian zones   |  |  |  |  |
| 5    | Theoretical                     | Objectives and functions of the pedestrian zones                                   |  |  |  |  |
| 6    | Theoretical                     | Objectives and functions of the pedestrian zones                                   |  |  |  |  |
| 7    | Theoretical                     | Relations between open green spaces - pedestrian zones                             |  |  |  |  |
| 8    | Intermediate Exam               | Mid-term exam  |  |  |  |  |
| 9    | Theoretical                     | Principles of planning for pedestrian zones  |  |  |  |  |
| 10   | Theoretical                     | Classification of pedestrian areas and design principles of pedestrian zones       |  |  |  |  |
| 11   | Theoretical                     | Problems and solutions, and examine examples of our country and other countries    |  |  |  |  |
| 12   | Theoretical                     | Design applications on the samples   |  |  |  |  |
| 13   | Theoretical                     | Design applications on the samples   |  |  |  |  |
| 14   | Theoretical                     | Design applications on the samples   |  |  |  |  |
| 15   | Theoretical                     | Design applications on the samples   |  |  |  |  |
| 16   | Final Exam                      | Final exam   |  |  |  |  |

| Lecture - Theory     | 14       | 10          | 2        | 168            |  |
| Term Project         | 1        | 6           | 1        | 7              |  |
| Midterm Examination  | 1        | 10          | 1        | 11             |  |

| Final Examination                       | 1 |  | 13                | 1                           | 14  |
|---|---|--|-------------------|-----------------------------|-----|
|   |   |  | To                | tal Workload (Hours)        | 200 |
|   |   |  | [Total Workload ( | Hours) / 25*] = <b>ECTS</b> | 8   |
| *25 hour workload is accepted as 1 ECTS |   |  |                   |                             |     |

| Learning Outcomes |  |  |  |  |  |  |  |
|-------------------|--|--|--|--|--|--|--|
| 1                 | To understand the importance and benefits of pedestrian zones  |  |  |  |  |  |  |
| 2                 | To understand the development process of the pedestrian zones  |  |  |  |  |  |  |
| 3                 | To learn the principles of planning and design of pedestrian zones   |  |  |  |  |  |  |
| 4                 | To understand the importance of the role of the landscape architect in the planning and design of pedestrian zones |  |  |  |  |  |  |
| 5                 | To design pedestrian zones   |  |  |  |  |  |  |
