---	---

Week	Weekly Detailed Course Contents & Teaching Methods	
1	Practice	Giving information about the term project
2	Practice	Description of research methods
3	Practice	Description of research methods
4	Practice	Term of procedures defined by the project
5	Practice	Description of Project spelling rules
6	Practice	Description of Project spelling rules
7	Practice	Presentation technics
8	Practice	Theoretical work
9	Practice	Theoretical work
10	Practice	Data collection
11	Practice	Data collection
12	Practice	Combining the theoretical study and the data collection process
13	Practice	Combining the theoretical study and the data collection process
14	Practice	Submission of Project Term

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Practice	14	0	13	182
Term Project	1	60	8	68
			Total Workload (Hours)	250
			[Total Workload (Hours) / 25*] = ECTS	10

*25 hour workload is accepted as 1 ECTS

Learning Outcomes

1	To be able to learn to do group work
2	To be able to learn to do group work
3	To be able to obtain the ability to make presentations in front of community
4	To be able to obtain the ability to make presentations in front of community
5	To be able to obtain the ability to make presentations in front of community

Programme Outcomes (Occupational Health Nursing Master's Without Thesis)

1	Student has the current theoretical and practice knowledge in Master's degree in Occupational Nursing field based on his previous learning in bachelor's degree, student realizes the knowledge, deepens and uses it
2	Student brings solutions to the issues which require expertise and is related to the Occupational Nursing Student solves the problem, he/she evaluates the results obtained and applies as needed
3	To be able to create new information by integrating different disciplinary in Occupational Nursing field.
4	Student shares and discusses his/her knowledge, current developments and his/her own researches systematically with groups from or outside of his/her field in written, verbal, or visual way
5	Student follows based on evidence practices and makes researches creating evidence about professional application in his/her own field.
6	Student manages researches about his/her field independently or in a team
7	Student has information on statistics, uses related soft wares efficiently, chooses correct statistical methods while making researches, has the skills to calculate and comment.
8	Student using research and statistical information can write report of the researches he/she made or participated and publishes it in an internationally accepted refereed journal or presents it in academic meetings
9	Student can make strategy and policy in topics related to Occupational Nursing, comments practice plans, and evaluates obtained results in scientific and ethical frame

Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High
