| Lear | ning Outcomes                                                                                         |
|------|-------------------------------------------------------------------------------------------------------|
| 1    | To learn universal norms about thesis study.                                                          |
| 2    | To learn about ethical rules.                                                                         |
| 3    | To have knowledge about the history and philosophy of science.                                        |
| 4    | To work in coordination with his / her supervisor.                                                    |
| 5    | The idea of the thesis is to investigate, project and execute.                                        |
| 6    | To gain skills in writing, presenting, defending and publishing the thesis.                           |
| 7    | To improve the level of education related to the field, to provide motivation, to develop confidence. |

### **Programme Outcomes** (Archaeology Doctorate)

- 1. Lesson is to provide information about the basic concepts and applied areas of archaeology.
- 2 2. Recognition, be inform and digging the uncover of archaeological treasures of our country and region.
- 3 3. Understanding of other disciplines related to the science of archaeology, ability to put forward the relations between them.
- 4 4. Detect the archaeological treasures of our country in the process and do today to be associated with it.
- 5. Interpret and evaluate the archaeological materials. 5
- 6. Necassary for the application of modern techniques, materials and use of materials and application tools of archaeology. 6
- 7 7. Disciplinary and interdisciplinary team-work.
- 8 8. To act independently, using initiative and creativity skills.
- 9 9. Embracing the the importance of lifelong learning, develop self-monitoring developments in science and technology issues.
- 10. Ability to work as an individual capable of independent decision-making ideas in oral and written communication skills to 10 express clear and concise manner.
- 11 11. To have awareness of ethical and professional responsibility.
- 12. Contribute to society in raising awareness about archaeology.

The data contained in our country and the world's cultural haritage-protection of cultural assets, to transfer to future generations and to introduce them to the world.
