

## AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title	Local Hormon	es						
Course Code	VFT535		Couse Level		Second Cycle (Master's Degree)			
ECTS Credit 2	Workload	54 (Hours)	Theory	1	Practice	0	Laboratory	0
Objectives of the Course Effects which may impact the system for generating very short or local hormones, histamine, prostaglandin, serotonin and effects of angiotensin antagonists to teach and give information about					oout.			
Course Content Circulation is usually not more than move to their effect on the systemic circula constitute a rapidly disintegrating or local hormones which may effect a very sh and anti-histamine drugs, prostaglandins, local structure and polypeptide horm serotonin.			hort period of hist	amine				
Work Placement	N/A							
Planned Learning Activities and Teaching Methods		Explanation	on (Presenta	tion), Discussi	on, Individual	l Study		
Name of Lecturer(s)								

## **Assessment Methods and Criteria**

Method	Quantity	Percentage (%)	
Midterm Examination	1	40	
Final Examination	1	60	

### **Recommended or Required Reading**

on, Lazo,
Mycek,
Veterinary

Week	Weekly Detailed Course Contents				
1	Theoretical	Local synthesis of hormones			
2	Theoretical	Histamines			
3	Theoretical	Histamine antagonists			
4	Theoretical	Prostaglandins			
5	Theoretical	The right information prostaglandins antagonists			
6	Theoretical	Information about serotonin.			
7	Theoretical	Information about the serotonin antagonists			
8	Intermediate Exam	Midterm exam			
9	Theoretical	Information about Anjiotensins			
10	Theoretical	Angiotensin antagonists			
11	Theoretical	Information on substances that affect fertility			
12	Theoretical	Local hormones in place of hypertension			
13	Theoretical	Local Hormone antagonists and other treatments			
14	Theoretical	Evaluation			
15	Theoretical	Discussion			
16	Final Exam	Final

				Course Information Form
Midterm Examination	1	5	1	6
Final Examination	1	5	1	6
			Total Workload (Hours)	54
[Total Workload (Hours) / 25*] = <b>ECTS</b>			2	
*25 hour workload is accepted as 1 ECTS				

Learr	ning Outcomes		
1	To obtain information on local hormones.		
2	Local effects and forms of hormones in the body learns.		
3	Local veterinarians in treatment of hormone antagonists an	nd learns usage areas.	
4	To find out and use resources about the profession in the	area.	
5	To give lectures and/or presentations and discuss with pro	fessionals in the area.	

### Programme Outcomes (Veterinary Pharmacology and Toxicology Master)

1	to be able to comprehend expert knowledge on field of pharmacology and toxicology in veterinary medicine	
2	to be able to define expert knowledge on interdisciplinary interaction in pharmacology and toxicology	
3	to be able to formulate ideas to solve complex problems using theoretical and practical information gained throughout the pharmacology and toxicology education	
4	to be able to integrate and interpret information in the area of pharmacology and toxicology with information in different fields and, if the need arises, provides scientific information and solutions to solve problems.	
5	to be able to develop and use strategies in his/her field of expertise in Master's Program of Pharmacology and Toxicology	
6	to be able to comprehend methods of obtained and submitted scientific knowledge	
7	to be able to analyse current information related to his/her field of expertise (scientific information, procedures etc.) and use them when necessary.	
8	to be able to apply technological tools in social relationships of vocational and professional environment.	
9	to be able to review, evaluate and interpret any data (field observations, available scientific information etc.) towards a specific purpose.	
10	to be able to comprehend expert knowledge on the function and basic pharmacological features of pharmacology and sub- branches of science, relationship between the drug and poison, pharmacokinetic, effects of the drugs, the dose-intensity and dose-effect relationship.	
11	to be able to identify expert knowledge on the function and basic toxicological features of poison, classifications and types of poisoning, toxicokinetic, general principles of treatment of poisoning.	
12	to be able to define and use laboratory equipment in a pharmacology and toxicology laboratory.	

# Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High
