

## AYDIN ADNAN MENDERES UNIVERSITY COURSE INFORMATION FORM

Course Title		Environmental Health Practice -I							
Course Code		CSAG503		Course Level		Second Cycle (Master's Degree)			
ECTS Credit	4	Workload	100 ( <i>Hours</i> )	Theory	0	Practice	4	Laboratory	0
Objectives of the Course		It is aimed to learn institutions and organizations providing services in the field of environmental health and their working principles							
Course Content		To learn the institutions and organizations that provide services in the field of environmental health and their working principles and to be able to produce solution methods in the problems encountered in the institution. It is aimed to acquire the ability to manage the process of the scientific method steps in the process of recognizing the problem in a specific issue related to environmental health and perceiving, designing, implementing and finalizing the related field research process independently.							
Work Placement		N/A							
Planned Learning Activities and Teaching Methods				Explanation (Presentation), Experiment, Discussion, Case Study					
Name of Lecturer(s)		Prof. Emine Didem EVCİ KİRAZ							

### Assessment Methods and Criteria

Method	Quantity	Percentage (%)
Midterm Examination	1	40
Final Examination	1	60

### Recommended or Required Reading

1	Prof. Dr. E.Didem Evcı Kiraz 's unpublished course notes.
2	Güler Ç. (Ed). Çevre Sağlığı (Çevre ve Ekoloji Bağlantıları), 1. ve 2. Cilt, Yazıt Yayıncılık, Ankara, 2012
3	Ladou J, Harrison R, Occupational & Environmental Medicine, 2014
4	Güler, Ç., & Çobanoğlu, Z. (1994). Çevresel Etki Değerlendirmesi. Annara: Aydoğdu Ofset ISBN, 975-7572.

Week	Weekly Detailed Course Contents	
1	Theoretical	Institutions and organizations providing services in the field of environmental health-1
2	Theoretical	Institutions and organizations providing services in the field of environmental health-2
3	Theoretical	Learning the working principles of environmental health institutions
4	Theoretical	To be able to produce solutions to the problems encountered in institutions
5	Theoretical	Be aware of the issue of a specific issue of environmental health-1
6	Theoretical	Be aware of the issue of a specific issue of environmental health-2
7	Theoretical	Field research process on environmental health issues-1
8	Theoretical	Field research process on environmental health issues-2
9	Theoretical	Field research process on environmental health issues-3
10	Theoretical	Midterm
11	Theoretical	Designing and implementing independent research on environmental problems-1
12	Theoretical	Designing and implementing independent research on environmental problems-2
13	Theoretical	Report on research on environmental problems-1
14	Theoretical	Report on research on environmental problems-2

### Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Practice	14	0	4	56
Midterm Examination	1	15	4	19

Final Examination	1	21	4	25
Total Workload (Hours)				100
[Total Workload (Hours) / 25*] = <b>ECTS</b>				4
*25 hour workload is accepted as 1 ECTS				

### Learning Outcomes

1	1) Learning the institutions and organizations that provide services in the field of environmental health and their working principles
2	2) To be able to produce a solution method in the problems encountered in the environment health institution
3	3) Be aware of the problem in a specific issue related to environmental health
4	Ability to manage the process of environmental process, such as perception, designing, implementation and finalization of the field research process in the light of scientific method steps
5	Obtaining theoretical and practical knowledge on environmental ethics, policy and planning, information systems, professional foreign languages, finance and intermediary institutions

### Programme Outcomes (Environmental Health Interdisciplinary Master)

1	To be able to have theoretical and practical updated information in the field of environmental health.
2	To be able to solve problems related to environmental health with scientific methods and evaluate them with a critical approach,
3	To have the ability to produce, execute and finalize new projects for scientific research,
4	To be able to have theoretical and practical knowledge about environmental health, historical development and economic dimension of environmental health,
5	To be able to have theoretical and practical knowledge about the deterioration effects of environment,

### Contribution of Learning Outcomes to Programme Outcomes 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High

	L1	L2	L3	L4	L5
P1	4	5	5	5	5
P2	4	5	5	5	5
P3	4	5	5	5	5
P4	4	5	5	5	5
P5	4	5	5	5	5
