3	Küçük, O. (2014). Logistics Principles and Management. Seckin Publishing.
4	Mangan, J., & Lalwani, C. (2016). Global logistics and supply chain management. John Wiley & Sons.

Week	Weekly Detailed Course Contents	
1	Theoretical	Project orientation and examination of the directive. Formation of project teams.
2	Theoretical	Project teams conduct research with directed work.
3	Theoretical	Literature review of project teams, discussion and brainstorming.
4	Theoretical	Literature review of project teams, discussion and brainstorming.
5	Theoretical	Conducting detailed studies with guided study.
6	Theoretical	Project monitoring 1: Project scope, structure of the draft report and reporting of tools and resources to be used, presentation of the project calendar, specifying the control phases.
7	Theoretical	Development of the project schedule.
8	Theoretical	Development of the project schedule.
9	Theoretical	Ensuring the controls related to the parts foreseen in the project schedule.
10	Theoretical	Joint meeting with the project teams and transfer of experience.
11	Theoretical	Project monitoring 2: First control phase of the project and assessment of deficiencies.
12	Theoretical	Development of the project schedule.
13	Theoretical	Project monitoring 3: The second control phase of the project. Evaluation of the deficiencies and the resulting product in terms of professional-ethical and universal values.
14	Theoretical	Eliminating the deficiencies, completing the project results report in accordance with the directive and developing presentation files.

Workload Calculation

Activity	Quantity	Preparation	Duration	Total Workload
Lecture - Theory	14	2	3	70
Midterm Examination	1	25	1	26
Final Examination	1	25	1	26
Total Workload (Hours)				122
[Total Workload (Hours) / 25*] = ECTS				5

*25 hour workload is accepted as 1 ECTS

Learning Outcomes

1	Has the basic knowledge, concepts and legislation in the field of International Logistics and Transportation.
2	Has the ability to transfer information about International Logistics and Transportation to employees and teammates.
3	Have the ability to interpret, analyze, identify problems and propose solutions by using the knowledge gained in the field of International Logistics and Transportation in the decisions, applications and behaviors.
4	Carries out independent research and studies in the field of International Logistics and Transportation, contributes to projects and takes responsibility.
5	Determines the goals and targets for logistics and transportation activities by using appropriate theories, tools and methods, designs the logistics system to support the mission and targets of the organization / organization.

Programme Outcomes (*International Trade and Finance*)

1	To gain the ability to define the basic terms, concepts and theories in the field of international trade and finance and to explain how these theories are applied in practice.
2	To be able to research a topic in the field of international trade and finance in depth and to follow current developments in the field by conducting a literature review.
3	Ability to analyze and evaluate data accurately and draw meaningful conclusions using advanced knowledge and skills acquired in the field of international trade and finance.
4	Being able to identify problems, develop solutions and make strategic decisions from an analytical perspective in the field of international trade and finance.
5	To be able to follow current developments in international trade and finance, to be able to discuss these issues effectively and develop solution proposals.
6	To gain the ability to strategically plan and effectively manage the financial and logistics activities of businesses.
7	Solving problems at all stages of the supply chain and ensuring efficiency by using optimization techniques
8	To be able to understand, interpret and appropriately apply relevant legislation in the fields of international trade, finance and logistics.
9	Ability to work harmoniously in teamwork, provide leadership when necessary, and coordinate contributions within the group
10	To be able to analyze the market dynamics of international trade in the globalizing world conditions and to develop strategies appropriate to the changing conditions.
11	To be able to communicate accurately and effectively in professional and academic environments by developing effective verbal and written communication skills.
12	To have a sense of professional responsibility and to act as a professional who is sensitive to business ethics and social responsibility.
