| Course Title                                     |   | Economic Policy and Applications                                                                                                                                                     |                      |                                                          |   |                                |   |            |   |
| Course Code                                      |   | İKP505                                                                                                                                                                               |                      | Course Level                                             |   | Second Cycle (Master's Degree) |   |            |   |
| ECTS Credit                                      | 5 | Workload                                                                                                                                                                             | 125 ( <i>Hours</i> ) | Theory                                                   | 3 | Practice                       | 0 | Laboratory | 0 |
| Objectives of the Course                         |   | Economic policies implemented during the Republican period, the process of integration within the global economy, the problems and opportunities during this period will be studied. |                      |                                                          |   |                                |   |            |   |
| Course Content                                   |   | Global economy, national economy, their relations, international economic institutions; their roles and missions, the impacts of these institutions on national economies.           |                      |                                                          |   |                                |   |            |   |
| Work Placement                                   |   | N/A                                                                                                                                                                                  |                      |                                                          |   |                                |   |            |   |
| Planned Learning Activities and Teaching Methods |   |                                                                                                                                                                                      |                      | Explanation (Presentation), Discussion, Individual Study |   |                                |   |            |   |
| Name of Lecturer(s)                              |   |                                                                                                                                                                                      |                      |                                                          |   |                                |   |            |   |

### Assessment Methods and Criteria

| Method              | Quantity | Percentage (%) |
|---------------------|----------|----------------|
| Midterm Examination | 1        | 40             |
| Final Examination   | 1        | 60             |

### Recommended or Required Reading

|   |                                                                             |
|---|-----------------------------------------------------------------------------|

| Week | Weekly Detailed Course Contents |                                                                                                                                                                                              |
|------|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Theoretical                     | Introduction, information about the course, responsibilities, exams, home-works, final exam will be explained to the student                                                                 |
| 2    | Theoretical                     | Ottoman economy from the 18th century till the 1st world war                                                                                                                                 |
| 3    | Theoretical                     | The economic policy implented during the1st WW, nationalist reaction,initiatives to form national bourgeoisie                                                                                |
| 4    | Theoretical                     | 1923-1929:Foundation years of the Turkish Republic, economic policy during these years, decisions and approaches                                                                             |
| 5    | Theoretical                     | 1930 s World economic crisis, protectionist, statist period.                                                                                                                                 |
| 6    | Theoretical                     | The new world order established after the 2nd WW, th new economic order, integration within the new world system, formation of the international institutions, their missions and functions. |
| 7    | Theoretical                     | Planned, import-substitution industrialization, the period from 1960s to 1980s.                                                                                                              |
| 8    | Intermediate Exam               | Midterm Exam                                                                                                                                                                                 |
| 9    | Theoretical                     | Structural transformations in the economy: 1980s to1990s                                                                                                                                     |
| 10   | Theoretical                     | Globalization: its impacts and reflections in the society, cultural field and economy. Relations between the global and the national economies, integration, problems and opportunities.     |
| 11   | Theoretical                     | Globalization and 1990s in Turkey                                                                                                                                                            |
| 12   | Theoretical                     | World Economy and the Turkish economy from the 1990s to the current days.                                                                                                                    |
| 13   | Theoretical                     | Economic problems during the 2000s and their reflections to the social life.                                                                                                                 |
| 14   | Theoretical                     | End-term evaluation and disccussion                                                                                                                                                          |
| 15   | Theoretical                     | End-term evaluation and disccussion                                                                                                                                                          |
| 16   | Final Exam                      | Final                                                                                                                                                                                        |

### Workload Calculation

| Activity                              | Quantity | Preparation | Duration | Total Workload |
|---------------------------------------|----------|-------------|----------|----------------|
| Lecture - Theory                      | 14       | 2           | 3        | 70             |
| Individual Work                       | 7        | 2           | 2        | 28             |
| Midterm Examination                   | 1        | 10          | 1        | 11             |
| Final Examination                     | 1        | 15          | 1        | 16             |
| Total Workload (Hours)                |          |             |          | 125            |
| [Total Workload (Hours) / 25*] = ECTS |          |             |          | 5              |

\*25 hour workload is accepted as 1 ECTS

**Learning Outcomes**

|   |                                                                                                         |
|---|---------------------------------------------------------------------------------------------------------|
| 1 | Students understand and follow up the contemporary economic developments                                |
| 2 | Students contribute to their ability to interpret and evaluate current economic events and developments |
| 3 | Students learn skills and tips on how to write a undergraduate level term-paper                         |
| 4 | Students bridge the gap between economic theory and local practice                                      |
| 5 | Students learn to assess the implications of economic policies                                          |

**Programme Outcomes** (*Economic Policy Master*)

|   |                                                                                                                                   |
|---|-----------------------------------------------------------------------------------------------------------------------------------|
| 1 | To be able to understand and interpret basic economic concepts, theories and methods                                              |
| 2 | To be able to apply mathematical, statistical and econometric analysis tools to economic problems                                 |
| 3 | To be able to interpret the structure and characteristics of the markets in the economy by understanding current economic events. |
| 4 | To be able to describe the role of innovation, creativity and technology in the dynamic global economy.                           |
| 5 | Ability to prepare projects and acquire creativity skills                                                                         |
| 6 | Ability to analyze macro and micro economic developments                                                                          |
| 7 | Being able to adopt the philosophy of lifelong learning                                                                           |

**Contribution of Learning Outcomes to Programme Outcomes** 1:Very Low, 2:Low, 3:Medium, 4:High, 5:Very High
